Vikram Singh

Mumbai | vikram.singh@email.com | +91-9876543213

PROFESSIONAL SUMMARY

Software Engineer pivoting to AI with 2 years experience. Recently completed training in LLMs and building first production RAG system.

TECHNICAL SKILLS

- Python
- JavaScript
- OpenAI API
- LangChain (Learning)
- PostgreSQL
- Vector Search
- Node.js
- React
- MongoDB
- AWS

WORK EXPERIENCE

AI/ML Engineer
FinTech Innovations
Jan 2024 - Present

- Building RAG system for financial document analysis (first major project)
- Learning prompt engineering best practices
- Implementing vector storage using pgvector
- Integrating LLM APIs into backend services

Backend Developer
WebSolutions Inc
Jun 2022 - Dec 2023

- Developed REST APIs and microservices
- Worked with databases and cloud infrastructure
- Started exploring ML/AI in last 6 months

EDUCATION

B.Tech in Computer Engineering, Mumbai University (2022)

CERTIFICATIONS

- AWS Solutions Architect Associate
- Generative AI Fundamentals
- Currently pursuing: Advanced LLM Development

KEY PROJECTS

- Financial RAG Assistant (In Progress) - Document QA for financial reports
- Simple Chatbot - Basic implementation with GPT-3.5
